IEEE East West University Student Branch (2021-2022)
- Senior Member
Rotaract Club of East West University (2021)

Language

English
Bangla

RYAN MOHAMMAD BIN SHAHJAHAN

Objective

A competent and highly driven frontend developer who is passionate about building effective websites. I want to be flexible in my website design and development utilizing high level framework languages so that I may change to another language as technology advances. I want to collaborate with knowledgeable professionals and significantly influence the software development. As I have previously created a few front-end websites, I am concentrating on full-stack development, more especially, MERN stack development, which encompasses high-level programming languages and databases.

Experience

- Undergraduate Teaching Assistant**
Computer Science and Engineering Department
East West University (2021 - 2022)
- Intern**
Web Editing Team
Amar I School (2021)

Project

- Food Recipe Website using ReactJS.(GitHub: <https://rb.gy/nn0s2>)
- Basic Book Management with CRUD using ReactJS (GitHub: <https://rb.gy/q45ze>)
- Blog Upload Website using ReactJS. (GitHub: <https://rb.gy/oq0d1>)
- Country App Website using ReactJS with fetching data (GitHub: <https://rb.gy/2xn80>)
- ToDo App Website using HTML5,CSS3,Javascript. (GitHub: <https://rb.gy/eopzx>)
